1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jay Chaskin on November 4, 2003.

The application has been amended as follows:

IN THE CLAIMS

In claim 9, line 3, "heater" was replaced by --heating zone--; and line 6, "casing" was deleted.

In claim 22, line 9, "the" after "heat" was replaced by --a--.

2. The following is an examiner's statement of reasons for allowance: The prior art record fails to teach or suggest the combination of steps in a method of making a metal casting, comprising: lowering a mold containing molten alloys into a cooling zone comprising a tank having an open upper portion and a closed bottom portion with water-cooled walls extending therebetween, the open upper portion being immediately adjacent to the heating zone; and solidifying the molten alloy by radiation cooling on the water-cooled wall of the tank to form the metal casting. Therefore, the claimed feature is allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
